

# NaturalShrimp's Patented Technology Timeline

## LSI / NSI

EC technology showed promise and began development of an improved prototype

## F&T / NSI

EC prototype proved successful, tested the market, and began development of production units

## NSI and Natural Aquatic Systems

Successfully tested EC production units and received a U.S. patent

## Production Facility

Building new state of the art production facility in La Coste, Texas to replace Pilot Plant destroyed by fire

## Regional Facility Expansion

Establishing multiple production facilities in the United States and Europe
